

VELOMOUNT 3280

SUPER-DUTY, HIGH-PERFORMANCE CENTER POST TYRE CHANGER WITH 10" TO 28" CLAMPING

The Centre-Post design secures the rim via a cone and shaft arrangement and is secured into place using a quick-release locking device, leaving the area around the tyre free to work on.

Leverless operation provides the easiest, safest fitting and removal process available, and the StrongArm super-duty assist arm provides all the functions you would expect from a machine of this level, including a lower-bead removal function.

KEY FEATURES

- Centre post design – no rim damage from clamps
- 10"–28" rim capacity
- Leverless operation
- StrongArm super-duty assist arm
- Ergonomically-positioned bead breaker operating pedal

SPECIFICATIONS

Rim clamping range:	12" – 28"
Max tyre diameter:	1100 mm – 43"
Max tyre width:	415mm – 16"
Bead breaker cylinder force at 10 bar:	30800 N
Operating pressure:	10 bar (145 Psi)
Power supply:	220V – 1ph
Motor power:	0.75 kW
Net weight:	360 kg (with assist arm)
Max overall dimension (H x W x D):	2020mm x 1200mm x 1830mm (with assist arm)
